Our Story

Sri Lanka has long been renowned for its rich marine resources and thriving fisheries industry. At Ocean Food Manufacturing (Pvt) Ltd, we have transformed this natural advantage into a world-class food manufacturing enterprise, becoming the largest canned fish producer in South Asia. Our operations are designed to meet growing local and international demand while maintaining the highest standards of quality and food safety.

Established in 2020, Ocean Food Manufacturing has rapidly evolved from a bold vision into a major industrial success story. Today, our state-of-the-art manufacturing complex houses a workforce of over 1,000 dedicated employees, all committed to delivering excellence at every stage of production.

Our facility currently produces over 150,000 cans per day, with ongoing expansion initiatives expected to significantly increase capacity in the years ahead. Through continuous investment in technology, infrastructure, and people, we are strengthening our position as a trusted partner in the global seafood industry.

Beyond manufacturing, our success is rooted in a commitment to supporting local fishing communities, creating sustainable employment opportunities, contributing to national economic

growth, and promoting Sri Lankan products in international markets. Recent export milestones have further reinforced our vision of positioning Sri Lanka as a competitive player in the global canned fish

The OFM Success Formula

Our achievements are driven by six core pillars:

- Quality Without Compromise
- Food Safety & International Standards
- Operational Excellence
- Sustainable Sourcing Practices
- Innovation & Continuous Improvement
- People-Centric Growth

At Ocean Food Manufacturing, we do not simply produce canned fish; we create value for consumers, empower communities, and contribute to building a stronger and more sustainable future for Sri Lanka.

Ocean Food Manufacturing (Pvt) Ltd – From Ocean to Excellence.

Quality Without Compromise

At Ocean Food Manufacturing (Pvt) Ltd, quality is at the heart of everything we do. From sourcing the finest raw materials to delivering finished products to consumers, we maintain strict quality control procedures, food safety standards, and hygiene practices throughout our operations. Our commitment extends beyond product excellence to responsible environmental stewardship through waste reduction, recycling, and sustainable manufacturing practices.

Our state-of-the-art manufacturing facility in Madurankuliya is designed to meet internationally recognized food safety and quality standards. Supported by modern technology, skilled personnel, and globally recognized certifications including FSSC 22000, ISO 22000 and SLSI. We consistently deliver safe, reliable, and high-quality seafood products to both local and international markets.

Our Mission

To produce premium canned fish by harnessing the richness of our oceans via sustainable fishing practices, cutting-edge technology, and a commitment to quality that meet the highest international standards.

What we commit to,

Attaining the market leadership in South Asia – position ourselves as the foremost canned fish producer in South Asia by capturing 10% market share within 7 years.

Entrench our global presence – enter 10 new international markets across Asia, the Middle East, Africa, USA & Oceania while complying with best international certifications.

Improving the sustainability – achieve 100% sustainable sourcing and reduce the company's carbon foot print by 30% within 4 years.

Operational efficacy – ascend production efficiency by 20% and reduction of the waste generation by 15% within 24 months.

Community empowerment – Create 1000+ new employment opportunities and provide vocational skill training for 800 workers within next 3 years.

PRIVATE LABEL MANUFACTURING SERVICES

At Ocean Food Manufacturing (Pvt) Ltd, we offer comprehensive Private Label and OEM Manufacturing Solutions for both local and international markets.

Leveraging our modern production facilities, stringent quality assurance systems, and extensive industry expertise, we partner with distributors, retailers, importers, wholesalers, and brand owners to develop customized canned seafood products under their own brands.

Our Private Label Services Include:

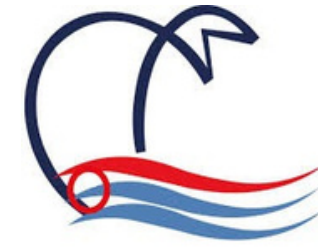

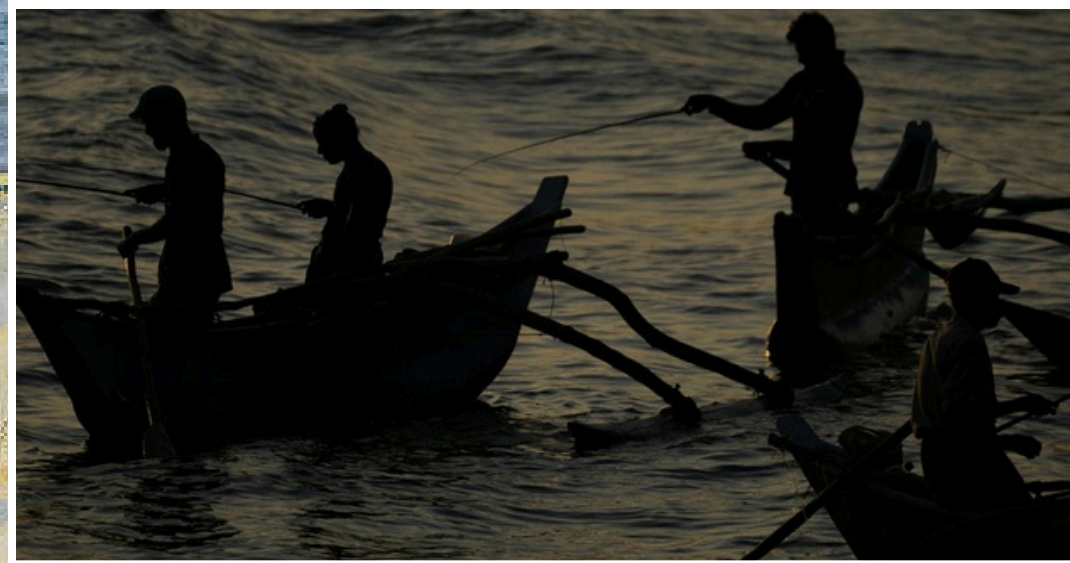

- Custom brand and label development
- Product formulation and recipe customization
- Flexible packaging and can size options
- Multilingual packaging for export markets
- Regulatory and export documentation support
- Bulk production and contract manufacturing
- Customized carton and retail packaging solutions

Markets Served:

International Markets – Export-oriented private label solutions tailored to customer specifications and market requirements.

Local Market – Customized branding and packaging solutions for supermarkets, distributors, wholesalers, and institutional customers.

Delivering sustainable & high-quality Canned Fish

OUR APPROACH TOWARDS SUSTAINABILITY

As aforesaid, best interest of our planet and its people always transcend any business motive in our every endeavor. Community empowerment is being given due prominence, also embedded as one of our core values, we assure to take every measure to empower community in many aspects, in tandem with global best practices, solemnly complying with UNHCR Sustainable Development Goals.

We invest in the well-being of coastal and fishing communities by creating sustainable livelihoods and training opportunities. We assure all our suppliers are being settled promptly to assure their sustenance and continuation of the vocation, also our employees whom are being paid with a fair wage, with clearly articulated KPIs and increments structures.

We operate our own kitchen cum cafeteria and offer free meals to all our workforce (breakfast to dinner), also being given the opportunity to take home for the consumption of their love ones for a nominal price. Our meals comprise of organic & nutritious items, mostly procured by our own farms.

We are committed to readily provide medical assistance to our people; health checkups are carried out periodically. Also, we prioritize the well-being of them, & their families, frequently organize array of programs to uplift the morale.

Of course we assure to confer equal opportunity to everyone contributing to our operations with neither a prejudice nor discrimination.

Delivering sustainable & high-quality Canned Fish.

FOOTPRINT ON GREENERY

Thus we inculcate modern technology in to our production & due diligence is set to minimize the waste, minimum of 30% of raw material (fish) will be discarded inevitably, also sizable volume of contaminated water, which derives throughout the production process.

Being a responsible business entity, we implement and follow stern waste management and recycling protocol, which we assure none of our waste is discarded to the environment causing a hazard.

We operate multiple water treatment plants, treated water is then siphoned to our own plantations, also fish wastage as fertilizer. Our plantations sprawling for many hectares are solely nourished via said sources, therefore bestow a truly organic harvest. Noteworthy to say, such harvest is solely relished by our people, which is used to prepare our meals, also allow them to purchase at a nominal rate.

We intend to further consolidate the recycling and waste management endeavor, solemnly in the wake of production expansion. Accordingly, we are planning to initiate the production of compost fertilizer and fish amino acid as by products, targeting the export market.
